The Aosta Valley is preparing to host the MountainBike Youth European

In these days the difficult and troubled competitive season of skiing ends, and the Pila (Valle d'Aosta) area begins to think about the summer season, with in natural - for the mountain station of the regional capital -, transition from 'SnowLand' to 'BikeLand'. And the first event of absolute importance will be the MountainBike European Youth Championship, scheduled from 28 June to 3 July 2021 on the spectacular and challenging track that in 2018 and 2019 has already hosted the continental kermesse of the Under 15 and Under 16 athletes.

Handling of 'bureaucratic' procedures on Monday 28 June, then competitions every day, from Tuesday 29 to Saturday 3 July, an event that will be staged in full compliance with the regulations to counter the spread of the pandemic, creating the so-called 'bubble', with all the protagonists of the week dedicated to 'fat wheels' subjected to tampons.

The organizational machine is already at work for the logistical planning of the event, from the team and camper areas, to the technical guide - already prepared and awaiting confirmation from the European Federation - to the hotel accommodation for athletes and professionals.

Packages have been studied for special stays for the teams that will participate in the MountainBike European Youth Championship. On the occasion of the competition, in Pila, it will be possible to plan a tailor-made stay at 1800 meters able to satisfy all the needs of the participants. Hotels, B&B, residences, chambres d'hôtes and apartments will offer specific solutions for the week of competitions in the immediate vicinity of the race tracks. Not only that, riding your MountainBike you can also improve your technique from freeride to downhill and cross country on the splendid permanent track 'PilaBikeLand "

All information to book your stay is available on www.pila.it
